Acquired immunodeficiency syndrome (AIDS). *See also* HIV
pancytopenia, in Zimbabwe, 317(1): 22–32
Adult respiratory distress syndrome (ARDS), fulminant hepatic failure complications, 317(2):134–136
Adverse drug reaction interstitial lung disease, nitrofurantoin-induced, 317(5):336–340
African Americans
cardiovascular disease consequence, kidney function abnormalities, 317(3):176–182
coronary risk factors, 317(3):189–192
dietary sodium and potassium roles in hypertension, 317(3):152–159
hypertension, obesity and diabetes roles in renal vascular disease, 317(3): 183–188
Jackson heart study, 317(3):141–146
left ventricular hypertrophy, morbidity and mortality theories, 317(3):168–175
Aging, systolic blood pressure in HIV infection, 317(4):232–237
Alcoholism, thiamine deficiency in pregnant patient, 317(4):261–262
Alteplase, for acute myocardial infarction, massive subfascial hematoma after, 317(1):53–54
Amphetamine abuse, cerebral hemorrhage, 317(5):350–352
Anemia
gastrointestinal bleeding, pheochromocytoma in, 317(1):63–66
megaloblastic, pancytopenia, in Zimbabwe, 317(1):22–32
Angiotensin, nontraditional cardiovascular risk factors, 317(3):193–207
Angiotensin-converting enzyme (ACE), "crack" cocaine-induced syndrome, 317(6):416–418
Angiotensin-converting enzyme inhibitors, new treatment strategies in patients with impaired left ventricular systolic function, part II, 317(5):312–317
Angiotropic large cell lymphoma (ALCL), fever of unknown origin, 317(4):266–268
Anion gap, extreme evaluation of, metabolic acidosis with, 317(1):38–49
Antiphospholipid antibodies, primary antiphospholipid syndrome, 317(6): 425–428
Aplastic anemia, pancytopenia, in Zimbabwe, 317(1):22–32
Arsenic intoxication, from bird's nest soup, Vietnamese patient, 317(4): 269–271
Asymmetric dimethylarginine (ADMA), hypotension during hemodialysis in, 317(1):9–21
Autonomic nervous system disorders, in idiopathic orthostatic intolerance, 317(2):88–101
Autoregulation, in postural orthostatic tachycardia syndrome, 317(2):124–133

Bacillus popilliae, endocarditis with prolonged heart block, 317(4):263–265
Baroreflex, neurally mediated syncope, pathophysiology, therapy, 317(2): 102–109
Bicuspid aortic valve, *Bacillus popilliae* with prolonged heart block, 317(4): 263–265
Bioethics, Tuskegee study, 5–8, 317(1): 1–4
Biopsy, endoscopic, jejunal invasion of pheochromocytoma, 317(1):63–66
Bird's nest soup, organic arsenic intoxication, Vietnamese patient, 317(4): 269–271
Blood pooling, pathophysiological mechanisms, in orthostatic intolerance, 317(2):78–87
Blood pressure, in African Americans
Jackson heart study, 317(3):141–146
obesity in hypertension role, 317(3): 147–151
role of obesity, 317(32):141–146
Blood volume, in idiopathic orthostatic intolerance, 317(2):88–101
Body weight
hypertension, African Americans, 317(3): 141–146
obesity role in hypertension, in African Americans
Bronchoalveolar lavage fluid, in pneumonia, 317(4):222–225

Calcification, cognitive deficits in chronic hypoparathyroidism, 317(5):273–277
Calcitriol, hyperplasia in uremia, 317(6): 377–382
Calcium
hyperplasia in uremia, 317(6):377–382
modulation of parathyroid cell function, 317(6):358–362
vitamin D and the parathyroid cell, 317(6):363–369
Calcium-sensing receptor, modulation of parathyroid cell function, 317(6): 358–362
Cancer, nongastrointestinal, local radiation effects on gastric emptying, 317(1):33–37
Cardiology Grand Rounds, new treatment strategies in patients with impaired left ventricular systolic function
part I, 317(4):247–250
part II, 317(5):312–317
Cardiovascular disease
in African Americans, Jackson heart study, 317(32):141–146
Jackson heart study, 317(3):141
risk factors
kidney function abnormalities, 317(3): 176–182
nontraditional, 317(3):193–207
Cavitation, upper lobe *Pneumocystis carinii* pneumonia, 317(2):137–139
Cerebral atrophy, primary antiphospholipid syndrome, 317(6):425–428
Cerebrovascular disease, primary antiphospholipid syndrome, 317(6): 425–428
Cerebrovascular disorders
dietary sodium and potassium roles, 317(3):152–159
southeastern stroke belt, 317(3):160–167
Childhood, hyperinsulinemia, obesity, 317(5):282–286
Clinical investigation, Tuskegee study, 5–8, 317(1):1–4
Cohort studies, in left ventricular hypertrophy, 317(3):168–175
Complete-resolution pneumonia, bronchoalveolar lavage fluid findings, 317(4):222–225
Compliance, salt sensitivity and diet, 317(5):287–294
Complication, cognitive deficits in chronic hypoparathyroidism, 317(5):273–277
Congestive heart failure, new treatment strategies, 317(4):247–250
Coronary disease
in African Americans, 317(3):189–192
dietary sodium and potassium roles, 317(3):152–159
risk factors, in African Americans, 317(3):189–192
Crack cocaine, syndrome mimics sarcoidosis, 317(6):416–418
C-reactive protein, nontraditional cardiovascular risk factors, 317(3): 193–207
Curriculum, evidence-based medicine journal clubs, 317(4):243–246
Cytomegalovirus retinitis, in highly active antiretroviral therapy, 317(5): 318–335

Dapsone prophylaxis, upper lobe *Pneumocystis carinii* pneumonia, 317(2): 137–139

Delayed-resolution pneumonia, bronchoalveolar lavage fluid findings, 317(4):222–225
Diabetes
hyperinsulinemia in obese children, 317(5):282–286
role in renal vascular disease, 317(3):183–188
Diabetes mellitus, hepatitis A-induced, 317(6):419–424
Diabetic gastroparesis, gastric motor abnormalities in diabetic patients, 317(4):226–231
Diabetic nephropathy, lovastatin effects, 317(4):215–221
Dialysis-related amyloidosis (DRA), management of, 317(6):410–415
Diet, salt sensitivity, 317(5):287–294
Diffuse hyperplasia, in uremia, 317(6):377–382
Drug abuse, cerebral hemorrhage, 317(5):350–352
Drug interactions, isoniazid, 317(5):304–311
Dysautonomia, in chronic fatigue syndrome, 317(2):117–123
Dyspepsia, gastric motor abnormalities in diabetic patients, 317(4):226–231

Echocardiography, left ventricular hypertrophy, morbidity and mortality theories, 317(3):168–175
Electrogastrography, gastric motor abnormalities in diabetic patients, 317(4):226–231
Enalapril, effects on diabetic nephropathy, 317(4):215–221
Endocarditis, *Bacillus popilliae* with prolonged heart block, 317(4):263–265
End-stage renal disease (EOS), hypotension during hemodialysis in, 317(1):9–21
Ethanol, sclerotherapy, treatment of parathyroid cyst, 317(1):50–52
Evidence-based medicine, journal clubs, curriculum design and participants' reactions, 317(4):243–246

Faculty development, evidence-based medicine journal clubs, 317(4):243–246
Familial Mediterranean fever, polyarteritis nodosa in Israel, 317(4):238–242
Fatigue syndrome, chronic, importance of orthostatic intolerance, 317(2):117–123
Fever of unknown origin (FUO), angiotropic large cell lymphoma, 317(4):266–268
Food interactions, isoniazid, 317(5):304–311
Fulminant hepatic failure, complication, adult respiratory distress syndrome, 317(2):134–136

Gallbladder carcinoma, neuroendocrine, pancreatic polypeptide hypersecretion with, 317(1):55–58
Gallium scan, "crack" cocaine-induced syndrome, 317(6):416–418
Gastric emptying
gastric motor abnormalities in diabetic patients, 317(4):226–231
local irradiation effects, 317(1):33–37
Gastrointestinal hemorrhage, anemia due to, pheochromocytoma in, 317(1):63–66
Gene-environment interactions, cardiovascular disease, environmental factors, 317(3):208–213
Geography, southeastern stroke belt, 317(3):160–167
Globin synthesis, dominant β-thalassemia intermedia, 317(5):341–345
Glomerular filtration rate, lovastatin and diabetic nephropathy, 317(4):215–221

Head-up tilt, cerebral autoregulation in orthostatic intolerance, 317(2):124–133
Heart block, *Bacillus popilliae* endocarditis, 317(4):263–265
Heart disease, in African Americans, Jackson heart study, 317(3):141–146
Hemodialysis, hypotension, end-stage renal disease, 317(1):9–21
Hemosiderosis, idiopathic pulmonary, 317(1):67–74
Hepatic disease, drug-induced, nitrofurantoin treatment, 317(5):336–340
Hepatic failure, hepatitis A-induced, 317(6):419–424
Hepatitis, chronic, active, drug-induced, 317(5):336–340
Hepatitis A, induced diabetes mellitus, 317(6):419–424
Hereditary hemorrhagic telangiectasia, juvenile polyposis in, 317(1):59–62
Highly active antiretroviral therapy (HAART), cytomegalovirus retinitis in, 317(5):318–335
HIV infection, systolic blood pressure in, 317(4):232–237
Homocysteine, nontraditional cardiovascular risk factors, 317(3):193–207
Human, salt sensitivity and dietary compliance, 317(5):287–294
Hyperinsulinemia, in obese children, 317(5):282–286
Hyperparathyroidism
recurrent, surgical management of, 317(6):390–397
secondary
adynamic bone disease, 317(6):405–409
medical treatment in uremia, 317(6):383–389
phosphorus role in development of, 317(6):370–376
surgical management of, 317(6):390–397
vitamin D effects, 317(6):363–369
Hyperphosphatemia, severe metabolic acidosis, elevated serum anion gap and, 317(1):38–49
Hypertension
in African Americans, obesity role, 317(3):147–151
cardiovascular disease risk factors, kidney function abnormalities, 317(3):176–182
dietary sodium and potassium roles, 317(3):152–159
genetic and environmental factors, cardiovascular disease, 317(3):208–213
in renal vascular disease, 317(3):183–188
role of obesity, in African Americans, 317(3):141–146
Hypocalcemia, cognitive deficits in chronic hypoparathyroidism, 317(5):273–277
Hypoparathyroidism, cognitive deficits and intracranial calcification in, 317(5):273–277
Hypotension
hemodialysis, end-stage renal disease, 317(1):9–21
orthostatic, pathophysiological mechanisms, 317(2):78–87
Hypovolemia, pathophysiological mechanisms, in orthostatic intolerance, 317(2):78–87

Idiopathic pulmonary hemosiderosis, 317(1):67–74
Illicit drugs, cerebral hemorrhage, 317(5):350–352
Imprinting, multiple endocrine neoplasia type 1 with Prader-Willi syndrome, 317(5):346–349
Insulin, nontraditional cardiovascular risk factors, 317(3):193–207
Intensive care unit, sleep and melatonin in, 317(5):278–281
Intracerebral hemorrhage, amphetamine abuse, 317(5):350–352
Isoniazid, food interactions, 317(5):304–311

Jackson heart study symposium, cardiovascular disease in African Americans, 317(3):141

Kidney. *see also* End-stage renal disease; Renal failure
lovastatin and diabetic nephropathy, 317(4):215–221

Lactic acidosis, thiamine deficiency in pregnant alcoholic patient, 317(4):261–262
Left ventricular hypertrophy
dietary sodium and potassium roles, 317(3):152–159
morbidity and mortality theories, 317(3):168–175
Left ventricular systolic function, new treatment strategies
part I, 317(4):247–250
part II, 317(5):312–317

Letter to the Editor, 317(5):353
Leukemia, acute, pancytopenia, in Zimbabwe, 317(1):22–32
Lipid peroxidation, exercise-induced stress, 317(5):295–300
Lipoprotein Lp (a), nontraditional cardiovascular risk factors, 317(3):193–207
Liver. *see* Hepatic
Lovastatin, effects on diabetic nephropathy, 317(4):215–221
Lung diseases, interstitial, "crack" cocaine-induced syndrome, 317(6):416–418

Magnetic resonance imaging, primary antiphospholipid syndrome, 317(6):425–428
Medical education, evidence-based medicine journal clubs, 317(4):243–246
Medical student, evidence-based medicine journal clubs, 317(4):243–246
Melatonin, patients sleep-wake pattern in the intensive care unit, 317(5):278–281
Metabolic acidosis, with extreme evaluation of anion gap, 317(1):38–49
Microalbuminuria, cardiovascular disease consequence, kidney function abnormalities, 317(3):176–182
Microcytosis, dominant β-thalassemia intermedia, 317(5):341–345
Mortality, southeastern stroke belt, 317(3):160–167
Multiple endocrine neoplasia type 1, with Prader-Willi syndrome, 317(5):346–349
Muscle biopsy, fever and angiotropic large cell lymphoma, 317(4):266–268
Myocardial infarction, acute, alteplase therapy, massive subfascial hematoma after, 317(1):53–54

Neurally mediated syncope, evaluation with tilt table, 317(2):110–116
Neurocardiogenic syncope
  evaluation with tilt table, 317(2):110–116
  pathophysiology, therapy, 317(2):102–109
Neuroendocrine tumor, gallbladder, pancreatic polypeptide hypersecretion with, 317(1):55–58
Neurologic, cognitive deficits in chronic hypoparathyroidism, 317(5):273–277
Neuropathy, in idiopathic orthostatic intolerance, 317(2):88–101
Nitric oxide synthase (NOS), induction of, hemodialysis hypotension, 317(1):9–21
Nitrofurantoin, immune-mediated lung and liver disease, 317(5):336–340
Nodular hyperplasia, in uremia, 317(6):377–382

Obesity
  hyperinsulinemia in children, 317(5):282–286
  in hypertension, African Americans, 317(3):141–146
  hypertension in African Americans, 317(3):147–151
  multiple endocrine neoplasia type 1 with Prader-Willi syndrome, 317(5):346–349
  role in renal vascular disease, 317(3):183–188
Orthostatic intolerance
  cerebrovascular regulation in, 317(2):124–133
  in chronic fatigue syndrome, 317(2):117–123
  epidemic of, disease recognition, 317(2):75–77
  pathophysiological mechanisms, history of, 317(2):78–87
Orthotopic liver transplantation, adult respiratory distress syndrome, fulminant hepatic failure complication, 317(2):134–136
Outpatients, tympanic and oral temperatures, 317(5):301–303
Oxidative stress, nontraditional cardiovascular risk factors, 317(3):193–207

Pancreas tumor, multiple endocrine neoplasia type 1 with Prader-Willi syndrome, 317(5):346–349
Pancreatic polypeptidoma, with neuroendocrine gallbladder cancer, 317(1):55–58
Pancytopenia, studies in Zimbabwe, 317(1):22–32
Parasympathetic, neurally mediated syncope, pathophysiology, therapy, 317(2):102–109
Parathyroid
  calcium ion concentration, 317(6):358–362
  cyst, treatment with ethanol sclerotherapy, 317(1):50–52
  hormone
    ethanol sclerotherapy treatment of parathyroid cyst, 317(1):50–52
    renal osteodystrophy update, pathogenesis and clinical management, 317(4):251–260
    vitamin D effects, 317(6):363–369
  hyperplasia in uremia, 317(6):377–382
  phosphorus role in development of secondary hyperparathyroidism, 317(6):370–376
Parathyroidectomy, surgical management of secondary hyperparathyroidism, 317(6):390–397
Pediatrics, idiopathic pulmonary hemosiderosis, 317(1):67–74
Pheochromocytoma, jejunal invasion, confirmed by endoscopic biopsy, 317(1):63–66
Phosphate
  hyperplasia in uremia, 317(6):377–382
  vitamin D and the parathyroid cell, 317(6):363–369
Phosphorus, in secondary hyperparathyroidism, 317(6):370–376
Physical activity, exercise-induced oxidative stress, 317(5):295–300
Polyarteritis nodosa, in Israel, 317(4):238–242
Polygenic disorders, dominant β-thalassemia intermedia, 317(5):341–345
Polypeptides, pancreatic, hypersecretion, with neuroendocrine gallbladder cancer, 317(1):55–58
Polyposis, juvenile, in hereditary hemorrhagic telangiectasia, 317(1):59–62
Postural orthostatic tachycardia syndrome (POTS), cerebrovascular autoregulation in, 317(2):124–133
Potassium, role in hypertension, 317(3):152–159
Pregnancy, thiamine deficiency in alcoholic patient, 317(4):261–262
Prognosis, left ventricular hypertrophy, morbidity and mortality theories, 317(3):168–175
